1. PURPOSE

This procedure describes the process used to implement the Food Innovation Team (FIT), a subcommittee of the Minnesota Food Safety & Defense Task Force (FSDTF).

2. SCOPE

This procedure applies to FIT members, FSDTF members, staff of the Food and Feed Safety Division (FFSD) of the Minnesota Department of Agriculture (MDA), and others as defined in Section 6 – Responsibility.

3. BACKGROUND

Most food businesses in Minnesota receive a license to do business from MDA, the Minnesota Department of Health (MDH), or their delegated agencies (DAs) with relative ease. However, some food business owners (FBOs) may encounter delays in licensing due to a number of factors that may not be easily solved without assistance. The FSDTF is statutorily responsible (MN Statute 28A.21) for a number of duties related to assisting FBOs including providing advice and coordination to state agencies and serving as a source of information and referral for the public concerned with food safety. The FSDTF created FIT to help answer questions and assist FBOs in navigating Minnesota's food licensing and regulatory environment.
